

Mango is an online language learning system teaching practical conversation skills for a variety of popular languages.

It's fast, easy and available online from home or at the library. The best part is that you can learn at your own pace. Best of all, its FREE for Southeast Steuben County Library cardholders through the library's website, or mobile apps for Android and Apple.

Choose from 45 foreign languages courses including:

Arabic	Finnish	Irish	Russian
Chinese	French	Italian	Spanish
Croatian	German	Japanese	Swedish
Czech	Greek	Korean	Tagalog
Danish	Haitian	Latin	Thai
Dari	Hebrew	Pashto	Turkish
Dutch	Hindi	Polish	Urdu
Farsi	Indonesian	Portuguese	Vietnamese

Plus 15 English as a Second Language course for those who speak:

Arabic	Mandarin	Cantonese	French
German	Greek	Italian	Japanese
Korean	Polish	Portuguese	Russian
Spanish	Turkish	Vietnamese	

Learn a new language on your Mac or PC or on your Apple or Android phone or tablet, free though your library.

To start set up an account with Mango online; then you can either learn a new language on your desktop or laptop or you can download the Mango Mobile Library Edition app for Android or Apple and use your smartphone or tablet.

If you use the Mango app you get

- Full access to most Mango course
- Interactive phonetic spelling
- Semantic color mapping
- Articulated productions
- Literal translations, and more!

For tech assistance call our Reference/Tech desk at: 607-936-3713 ext. 502

You can even make an appointment with a member of our tech team who can walk you through the Mango set and show you how to use the software! To make a One-On-One appointment call the Ref/Tech desk at the same 936-3713 ext. 502 no. and ask for Linda or Jenn.

Your Passport to Learning.

Select from 45 foreign language courses or 15 English as a Second Language courses and learn online at your own pace.

You can learn a new language, or improve your English language skills, via a computer, smartphone or tablet at any time that is convenient for you!

Ask the staff for details!

Southeast Steuben County Library
 Corning, NY 14830
 Website: SSCLIBRARY.ORG

Here are the steps to get started:

1. Visit the library's website found at SSCLIBRARY.ORG
2. Click on the Mango Languages link that displays — seen in Example 1.

The Mango Log In and Create a Profile page will display — it is seen in Example 2.

3. Create a Profile (also known as a login) by entering your email address and a newly created password into the Create a Profile section (seen bordered in red in Example 2)—then click the Sign Up link seen bordered in red in Example 2. **Note: You can also simply click on the “Start Learning Link” seen bordered in blue in Example 1 — however, you can’t track your learning progress unless you create a free Mango account.**

After you’ve completed step 3 you’ll receive a confirmation email that will allow you to click on a link to complete the registration process. Once you’ve clicked on the link you’ll automatically be re-directed to the Mango Log In page where this time — and in all future times — you’ll be able to log into your account with the e-mail address and password you used to create your account. And in the future you can simply repeat steps 1 & 2 and just log into your account to access the Mango Languages software.

Once you’ve completed the Create a Profile (registration) process and logged in:

Your Dashboard will display welcoming you to Mango Languages. The Dashboard is seen in Example 3.

Explore the website, and when you’re ready, click on the Courses tab along the top to select a new course. Once you’ve selected a course it will show up on the Dashboard page which displays by default when you log in.

The Courses Tab is seen in Example 3; the default languages displayed are Foreign Courses for (native) English speakers as seen in Example 4. If you click the English Courses you’ll see all the English as a Second Languages course offered — they are seen in Example 5. Example 6 shows the opened “Spanish (Latin America) Basic” course seen as a previously worked on course by this library patron in the Dashboard example (Example 1).
